LIFE-AND-DEATH OBJECTIVE

The Administration is planning to ask Congress to 1964 by the Pavement Plato: appropriate from \$2 to \$2.5 billion in additional funds and somehow many of us hate to for the Air Force in the coming year. But some men in see it leave. Congress think the boost ought to be greater.

The argument runs something like this:

Since the dawn of the atomic age, the United States been another one of those "mudhas had first a monopoly and then a long numerical lead used to years in which man in nuclear weapons over the Soviet Union. But Russia is gropes, like a blind mole in the now producing both atomic and hydrogen bombs in in- dark, for something better creasing numbers. And as it builds a substantial stock- The trouble with groping is that pile, the numerical difference becomes less important by so gradually you hardly notice it. itself.

What will count hereafter will not be numbers alone, of us ran to appreciate and in but quality of weapons, and the ability to deliver them for the first time in more than over the targets. There is some question whether the two decades, the American people United States is advancing in these matters as fast as it in their history—and, money-wise, should.

For when Russia has enough bombs to wipe out year. America's industry and urban centers, to be safe we can years such as this, and we may act only on the assumption that the Kremlin might some suddenly awaken to the fact we day try to do just that. We must anticipate that Soviet have achieved more than we even dared to dream. leaders might attempt a sneak attack designed to smash not only our industry but the power of our atomic air Everyone has his own reason for force to retaliate with crushing blows against Russia. | liking or disliking 1954, but it cer-

We know we can never start a war, preventive or man optimism. In what previous otherwise. Our moral principles will not permit us that year did a French premier ever course. Therefore, if war is ever to come, it will be the publicly (or privately) launch a Reds who will strike the first blow.

Consequently, it is plain that Our Air Force, and our fueled by the grape, have done supply of nuclear weapons, must together be strong great deeds in the past. Could there, then, be anything impossienough to absorb the worst attack the Russians can de-ble for an homogenized Frenchliver against us, and then be thrown into gigantic counter- man? assault upon the Soviet Union.

If we have such a force, and the Russians know it, to homogenize a Frenchman. that is the best assurance that there will be no war. For field of sports was the 3:58 8 mile the men in Moscow would know that to launch an attack by Dr. Roger Bannister of Brit upon the United States would be to bring down on their ain. New Year's resolution that pays off in thrills ...

Im going to drive that 1955 BUICK!"

Winterest in our new cars over the years—but never anything like this.

Since the day we unveiled these glamorous new Buicks, people have been coming in - not only to see and study and sit in these great carsbut, very definitely, to drive them.

They want, it seems, a firsthand taste of the thrills that Buick engineers have conjured up for this new year.

And who can blame them?

For the word's around that Buick has what no other car in the world has - a new kind of performance from a new kind of transmission.

It's called Variable Pitch Dynaflow Drive.* It uses the principle of the modern airplane's variable pitch propeller. And it does in oil what that aeronautical marvel does in air.

At one pitch of the blades inside the Dynaflow unit, you get more fuel efficiency in normal cruising and driving - which means better gas mileage, pure and simple.

But push the gas pedal beyond the full throttle position and you switch the pitch. Instantly, you get electrifying response - a sudden safety-surge of accelerating power to get you quickly out of a tight spot-and with

the absolute smoothness that is constant in Dynaflow Drive.

Maybe you, too, have made a mental resolution to drive a '55 Buick - but why wait?

We're ready, willing and eager to let you try one—feel the spectacular new power that gives life to this bounteous beauty-and see for yourself that here is a performance thrill too exciting to miss. Drop in on us this week, won't you?

*Standard on Roadmaster, optional at extra cost on other

COPS CHECK LOSSES SIDNEY, Neb (A) - A \$24 as-

sessment in a speeding arrest faded to a 15 cent deficit for the county before the incident was closed.

speeding charge mailed the \$24 check along with a waiver of appearance and a plea of guilty i the presence of the arresting officer. But once back home, the accused speeder stopped payment

on the check. The matter became a deficit operation for the county here when a local bank levied a 15 cent handling charge on the stopped check.

Premier Shigeru Yoshida will pay an official visit to the U.S. in the very near future. He had spent a week in England where he was received by Queen Elizabeth II, and Prime Minister Winston Churchill
